STATE SENATOR TIM LARSON

# A BIPARTISAN EFFORT TO STOP THE EAST WINDSOR FIRING RANGE

When a firing range was proposed for East Windsor on valuable open space near homes, churches, and a school, we stood up to the plan in a great bipartisan effort. Together with Lt. Governor Nancy Wyman, my Republican committee partner state Senator Tony Guglielmo, and the grassroots support of the community, **we put a stop to the proposed firing range.** Credit should also go to the state agencies and officials who listened to the concerns of residents and removed East Windsor from consideration.

Thank you for your advocacy,  
your support and your love of  
East Windsor.
